

# Fermilab updates

Kurt Riesselmann

Community Advisory Board meeting

21 November 2019

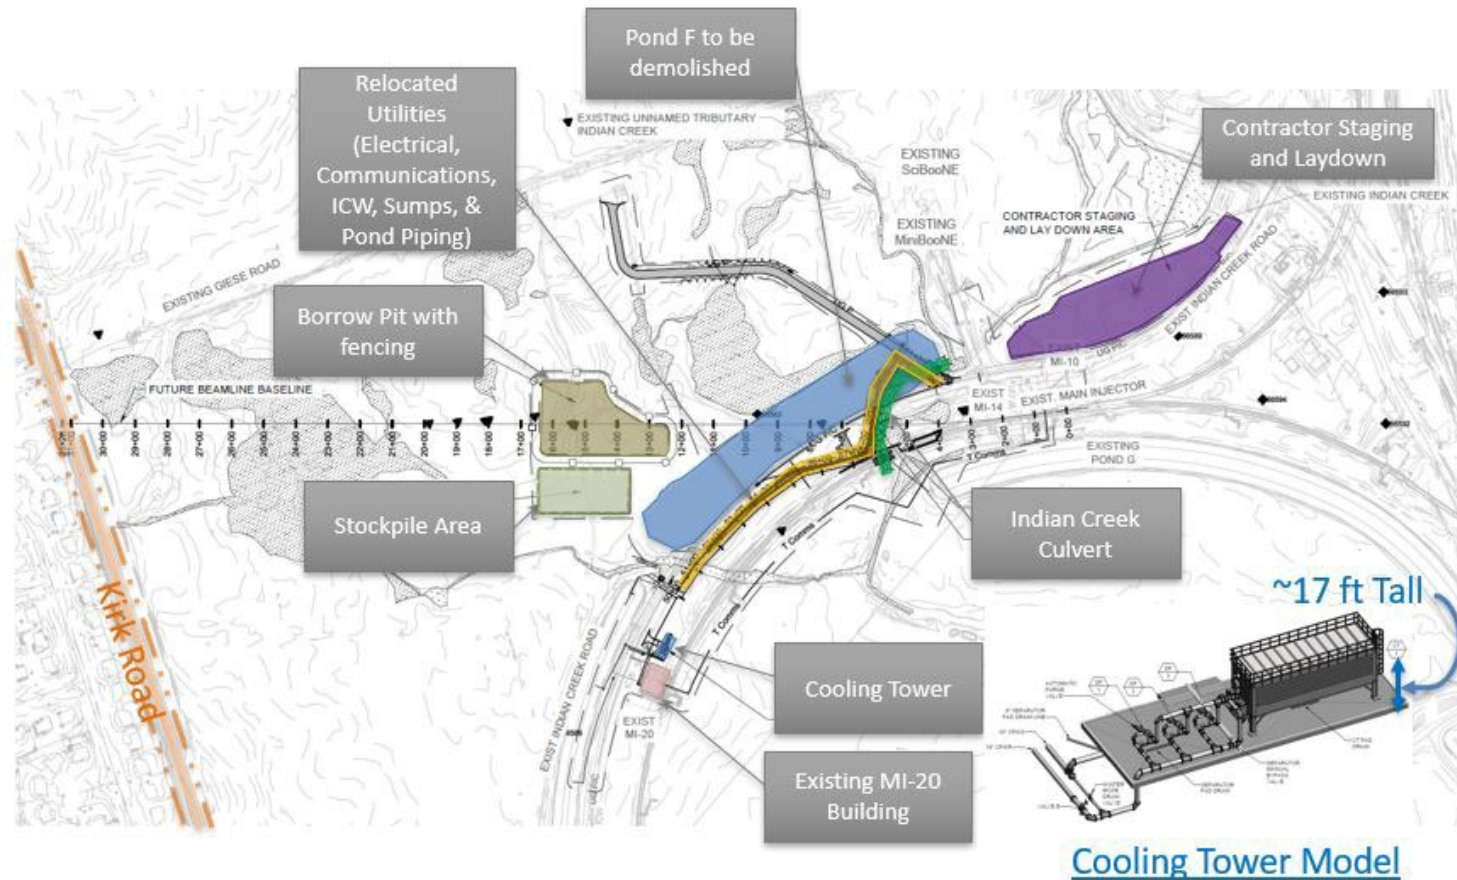

# Fermilab and international partners break ground on new beamline at Fermilab for LBNF/DUNE project

<https://news.fnal.gov/2019/11/fermilab-international-partners-break-ground-on-new-beamline-for-the-worlds-most-advanced-neutrino-experiment/>

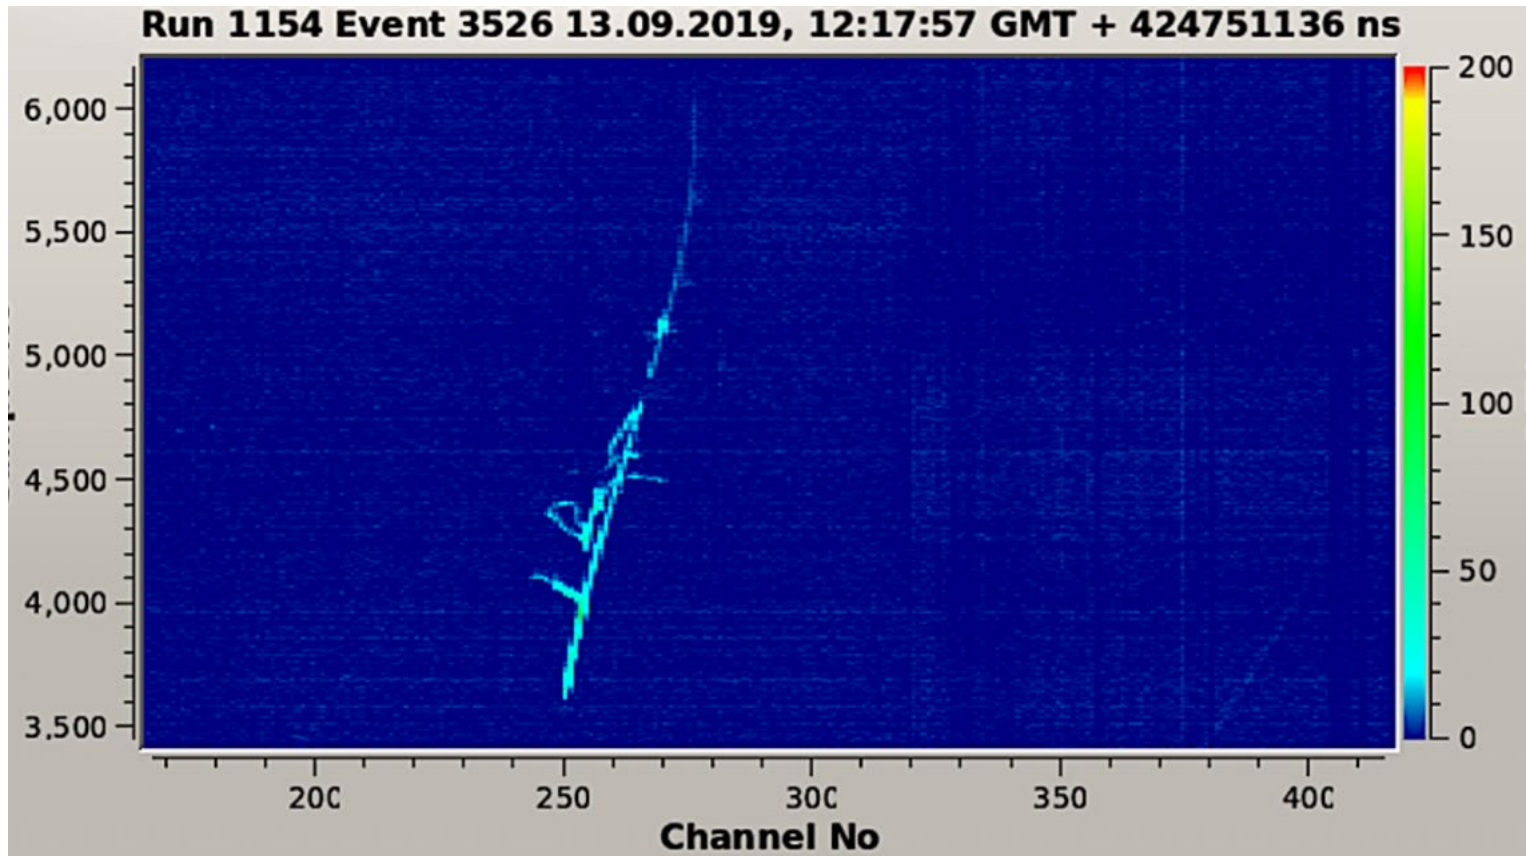

# That means: Prep work to start for DUNE-related construction on the Fermilab site

<https://news.fnal.gov/2019/11/prep-work-to-start-for-dune-related-construction-at-fermilab/>

# Second DUNE prototype detector at CERN (with dual-phase technology) sees first particle tracks

<https://www.symmetrymagazine.org/article/dune-scientists-see-particle-tracks-with-dual-phase-technology>

Fermilab launches new Quantum Institute,  
new website (quantum.fnal.gov ), receives funding  
for Illinois Quantum Network

<https://news.fnal.gov/2019/11/fermilab-launches-new-institute-for-quantum-science/>  
<https://news.fnal.gov/2019/11/doe-awards-fermilab-and-partners-3-2-million-for-illinois-quantum-network/>

# Fermilab recognized with Gold Medaillon Award by U.S. Department of Labor for hiring veterans

<https://news.fnal.gov/2019/11/fermilab-receives-2019-hire-vets-gold-medallion-award/>

# Fermilab receives platinum-level recognition for ecological restoration efforts

<https://news.fnal.gov/2019/11/fermilab-receives-platinum-level-recognition-for-commitment-to-ecological-restoration/>

# Fermilab oil spill cleanup technology among finalists for R&D 100 award

<https://news.fnal.gov/2019/11/fermilab-oil-spill-cleanup-technology-among-finalists-for-rd-100-award/>
